Class List and Description

A. Main Street ND

Learn HOW, WHAT, WHEN, & WHY to start your own 21st Century Business in today’s technological world. Learn to recognize your strengths AND weaknesses and how to attract and retain the people you need to compete and succeed.

B. Lessons About Your Money

The more you know about how to make money, how to save money, and how to spend money, the less likely it is that you will have money problems as an adult. Do you know people who never seem to have enough money? If you don’t want to live that way, listen up. We have some good information to share with you today. Students will get the opportunity to look at and learn about foreign currency.

C. Making Light

Presenters describe the movement of electrons, and how electricity is created; then with handouts describes how a switch, fuse, and light work. Presenters distribute batteries, and lighting apparatus to groups of students. Students are then instructed how to connect a small, basic circuit to conduct electricity from the battery to make the light work. Limit 24 Students.

D. Virtual Reality

Virtual/Augmented Reality. Limit 16 Students.

E. Being A Police Officer

Students will have the opportunity to speak with Minot Police Officers about the profession of law enforcement. They will also have the opportunity to see and learn about the equipment Officers carry in their day to day duties.

F. Operation Lifesaver

Railroad Safety and how to report emergencies that occur while on or near railroad property.

G. Excuse Me! Yes, Please! No, Thank You!

Students will learn common manners using presentations as well as role plays.

H. Snowmobile Safety

Discuss key components of operating snowmobiles in a safe manner. Topics include: pre-ride checks on snowmobiles, crossing ice, and identifying and treating cold weather injuries.

I. Let the World Surround You

It will let children learn about animals from around the world thru touch and by inspecting bio facts.

J. Folding the American Flag

Individuals will fold the American flag, learn the meaning of the folds, and be provided US flag etiquette information.

K. Electrical Motors

For this class we will use two 20-minute sessions to explain how electric motors work and each student will build a simple electric motor that they can take home with them. Each student will build a motor kit, and then run the motor using a battery to learn how electricity make a motor turn. Grades 5 and above. Limit 8 Students.

L. Electrical Circuits

A 20 Minute session where we will explain how an electric circuit works to turn on a light. Students will build a simple circuit they can take home. The project will have a battery, a switch, and a lamp they will connect with wire and be able to turn the light on and off. Limit 8 Students.

M. Safety Super Heroes!

Learn how Safety Professionals can be super heroes of the workplace. Learn how we eliminate hazards and save lives and money! Limit 24 Students.

N. Money Matters

Learn how Safety Professionals can be super heroes of the workplace. Learn how we eliminate hazards and save lives and money! Limit 24 Students.

O. Knots to Know

7 Essential Knots every Boy or Girl should Know. We provide the string.

P. Working on an Ambulance

Will talk about how to become a member of an ambulance. Will show skills EMT or Paramedic can perform.

Q. From Producer to the World - Your Foods Journey from the Farm to Your Fork

Discuss how the products produced locally go from local farms to the dinner tables around the world.

R. Get Up and Move

Fun class with activities that allow the kids to move!

S. Exploring Careers in Virtual Reality

This class will provide students with an opportunity to become familiar with 360-degree and virtual reality media and to expose several careers through a series of virtual reality experiences. Available experiences will include careers in energy, healthcare, construction and more. Limit 8 Students.
