# SPEAKERS

## WELCOME:

### ND Governor Kelly Armstrong

(video message)

Governor Kelly Armstrong is a lifelong, devoted North Dakotan and a tireless advocate for making North Dakota a better place to live and work. With a background

in business, Kelly is fighting for our North Dakota values and working to advance positive changes to benefit our state and country. After graduating from Dickinson High School in 1995, Kelly earned a bachelor's degree from UND in 2001 and a law degree from UND law school in 2003. Kelly married Kjersti in 2004, and elected ND State Senate in 2012 and to US House of Representatives in 2018.

## FEATURED SPEAKER:

### Chief of Police Matthew Anderson

Chief Anderson leads the City of Wahpeton Police Department. Graduating from MSU Moorhead with a BA in Criminal Justice, he started his law enforcement career in Hillsboro, ND. He moved to Wahpeton, in 2004, serving as patrolman & K-9 Officer for six years before being promoted to Sergeant and then Chief of Police in 2023. He and his wife Dana have 3 sons, Luke, Isaac, and Micah, who are active in school activities in Wahpeton. The family enjoys time at the lake and traveling.

Matthew strives to make a positive impact daily with the mindset that everyone counts or nobody counts.

## OPENING WELCOME:

Greetings to our 2025 Marketplace for Kids Participants

The North Dakota State College of Science is excited to host Marketplace for Kids again this year.

On behalf of the entire NDSCS campus, I welcome the young emerging entrepreneurs, teachers, parents, and other guests to our beautiful campus.

Our faculty and staff members enjoy the enthusiasm and excitement you bring to our campus; when we look at you, we see our future. Enjoy the day – learn, teach, and make new friends.

Sincerely,

Rod Flanigan, Ph.D. NDSCS President

### NATIONAL ANTHEM

Oh, say can you see, by the dawn's early light, what so proudly we  
hailed at the twilight's last gleaming? Whose broad stripes and bright  
stars, through the perilous fight, o'er the ramparts we watched, were so  
gallantly streaming? And the rocket's red glare, the bombs bursting in  
air, gave proof through the night that our flag was still there. O say,  
does that star-spangled banner yet wave o'er the land of the free and  
the home of the brave!

# PROJECT GUIDE

The following list is in order by school, teacher and table number. It includes the name of the project, description and exhibitor name(s).

## St. Mary's School Mr. Ramos

### 1 Bouncing Bubble

The bouncing experiment demonstrates how a special solution, often containing glycerin, allows bubbles to bounce off surfaces, defying their typical tendency to burst due to surface tension and oils.

Ava A

### 2 Dancing Corn

Demonstrates a chemical reaction between baking soda (a base) and vinegar (an acid) that produces carbon dioxide gas, causing corn kernels to "dance" up and down in a solution.

Everlyn F

### 3 Jelly Soap

Creating a jiggly, fun-to-use soap using a gelling agent like gelatin or agar-agar, which traps water and creates a semi-solid structure, allowing the soap to wiggle and jiggle.

Lauren R

### 4 Natural Dyes and Paints

Explores creating natural dyes and paints from readily available materials, focusing on extracting pigments from fruits, vegetables, and other natural sources to create a variety of colors.

Esther D

### 5 Galaxy Bottles

Creating a visually captivating sensory bottle by layering colored water. Glitter, and sometimes cotton balls or other materials to mimic the appearance of a galaxy.

Finley J

### 6 DIY Lava Lamp

Oil is hydrophobic so actively moves away from water molecules. The tablet reacts with the water, creating carbon dioxide bubbles. These bubbles float to the surface carrying with them some water. Once the carbon dioxide bubbles pop the water sinks back down below the oil.

Sadie A

### 7 Layered Liquid

Demonstrates density differences between liquids by layering them in a container, with denser liquids sinking below less dense ones, creating distinct layers.

Carsten W

### 8 Rock Candy

Demonstrates crystallization by dissolving a large amount of sugar in water, creating a supersaturated solution, and then allowing the sugar to recrystallize on a seed crystal (like a sugar-coated string or skewer) as the solution cools.

Isaac K

### 9 Invisible Ink

Exploiting chemical reactions that become visible when heat or a pH indicator is applied.

Easton M

### 10 Magnetic Slime

Magnetic slime is created by adding iron filings or powder to a standard slime recipe, resulting in a mixture that is attracted to magnets, allowing for fun experiments.

Zander F

### 11 Ooblek

A non-Newtonian fluid made from cornstarch and water, exhibiting the unique property of acting like a liquid when moved slowly and like a solid when pressure is applied.

Gannon C

Remember to thank your presenters, teachers, chaperones, bus drivers, and other volunteers that help you throughout the day!!

## Dakota Montessori Mr. Nathan

### 12 The Book Block

The book block will hold the page of a book down so it won't flip back.

Calvin B

### 13 Zuca Pack

This will be a bag to help organize a zuca skating bag.

Eloise M

### 14E The Zero Hand Robotic Mixer

It helps you mix your food like scrambled eggs and other foods

Gemma J

### 15 Extra Support Ankle Brace

A more stable ankle brace. Used for twisted or sprained ankles.

Mia G

### 16 Water Bottle Utensil Holder

My water bottle utensil holder holds all your utensils so you have less to hold in your hands

Eva C

### 17 The Grasper

Grips items under furniture and pulls them out

Albert S

### 18 The Drip Catcher

Prevents ice cream from dripping all over the place

James J

### 19 Smart Hair Brush

The smart hair brush allows you to comb and spray your hair at the same time.

Eleena M

### 62 The One-Man Raft

The One-Man Raft is a raft that you can customize to your liking! It's useful if you want some time to relax as you can go to your local lake.

**Remember to thank your  
presenters, teachers,  
chaperones, bus drivers,  
and other volunteers that  
help you throughout the  
day!!**

# NOTES

This image shows a blank sheet of white paper with ten horizontal black lines. The lines are evenly spaced and run across the width of the page, providing a template for writing or drawing.
